

UW Health Department of Orthopedics and Rehabilitation and Department of Anesthesiology

# Virtual Multidisciplinary Pain and PM&R Research Day

Presentation of basic science and clinical pain research

Friday May 14, 2021 | 8:00am-2:00pm | via WebEx

**8:00 Introduction, Nalini Sehgal, MD**  
Professor, Physical Medicine &  
Rehabilitation, UW Health

**8:05 Keynote Speaker, Shravani  
Durbhakula, MD**, Assistant Professor,  
Department of Anesthesiology, Johns  
Hopkins Medicine

**8:50 Kayla Chase, PhD**, Medical Science  
Liaison, Collegium Pharmaceutical,  
Inc.

**9:20 Chen Cui, MD and Rick Tennant, DO**  
Pain Medicine Fellows, UW Health

**9:50 Break**

**10:00 Yeng Fransoua Her, MD, PhD**,  
PM&R Resident, UW Health

**10:25 Matthew Cowling, DO**  
PM&R Resident, UW Health

**10:40 Simon Wallace, MD**  
PM&R Resident, UW Health

**10:55 Break**

**11:05 Kellen Hilton, MD**  
PM&R Resident, UW Health

**11:20 Ashley Mohan, DO**  
PM&R Resident, UW Health

**11:35 Christopher Lynch, DO**

**11:50 Lunch**

Shravani Durbhakula, M.D., is a board-certified interventional pain physician and anesthesiologist. She joined the faculty of the Johns Hopkins School of Medicine in 2017 where she currently directs School of Medicine's Pain Course, and previously served as the Program Director of the Multidisciplinary Pain Medicine Fellowship. Her clinical focus is in neuromodulation implantable devices and opioid management. She is known nationally for creating and producing the innovative digital neuromodulation curriculum called "Pain Rounds", which can be found at [PainRounds.org](http://PainRounds.org).

Her curriculum has been adopted by the majority of accredited pain fellowships across the country, and she was recently featured on National Public Radio for her educational innovation.

Dr. Durbhakula is also passionate about strategic innovation in healthcare systems and public health policy. Currently, she is a fellow of the National Institutes of Health and she is pursuing an MPH-MBA through the Johns Hopkins Bloomberg School of Public Health and the Carey Business School to explore the intersection of medicine, public health, strategy, and operations. Her long-term goal is to engender change at the population level by serving as the Chief Medical Officer of the United States Department of Health and Human Services.

**12:20 Jonathan Liang, DO**  
PM&R Resident, UW Health

**12:35 Alyssa Warden, DO**  
PM&R Resident, UW Health

**12:50 Vincent Yaccarino, MD**  
PM&R Resident, UW Health

**1:05 Break**

**1:15 John Silva, MD**  
CA-Anesthesiology Resident, UW Health  
Keth Pride, MD, Assistant Professor

**1:30 Michael Suer, MD**, Assistant Professor, UW  
Health, **Ani Srinivasan, Emma Hansen, Kiera  
Miller**, Biomedical Students, UW-Madison

**1:45 Michael Suer, MD**,  
Assistant Professor, UW Health
